

TFMoran Provides Engineering for Woodmont Commons

Main Street Apts. at Woodmont Commons

Londonderry, NH – TFMoran provided civil and structural engineering services for Main Street at Woodmont Commons, a new four-story, 87-unit luxury apartment building.

The units consist of a variety of studio, one, two, and three-bedroom apartments. In addition, the building has 23,000sf of retail space to be completed on the first floor where tenants and Woodmont Commons' visitors can shop. Main Street is the second building completed in Phase One of Woodmont Commons. The building is located at 30 Main Street next to the new 603 Brewery and Beer Hall.

The Main Street project team included Performance Building Company as the

general contractor and Shook Kelley as the architect of record, with Gavin and Sullivan Architects providing additional design services.

Woodmont Commons is a new mixed-use development designed to be an urban village-style, walkable community in the rural countryside, on over 600 acres. This unique multi-phased development is located off of I-93 Exit 4 in Londonderry. Plans include housing, retail stores, restaurants, office space and amenities.

TFMoran is working with Pillsbury Realty Development in providing civil and site engineering services for the development.
