TFMoran promotes engineers Rice, Lamb and Roy to Principals

Bedford, NH - TFMoran is proud to announce the promotion of several senior-level employees, Christopher Rice, Thomas Lamb, and Kyle Roy, to Principals of the firm. Mr. Rice is in the civil engineering group; Mr. Lamb and Mr. Roy are in the structural group. “We are pleased to welcome these exceptional individuals who embody the core values of TFMoran: engineering excellence and superior client service, into our ownership team,” said Robert Duval, president of TFMoran. “Effective engineering companies require leaders who are innovators and problem-solvers. These new Principals have all taken on leadership roles within the construction industry, and within community service organizations as well.”

Christopher Rice joined TFMoran’s Civil Engineering Department in 1999 and currently manages the Civil Division in TFM’s Portsmouth office. He holds a Bachelor of Science degree in Civil Engineering Technology from UNH. His experience includes civil/site design and permitting of land development projects ranging from small subdivisions to some of the largest mixed-use developments in the state. Mr. Rice lives in Hooksett with his wife and two sons.

Thomas Lamb, PE joined the company’s Structural Engineering Department in 2007. He holds a Bachelor of Science degree in Civil Engineering from UNH. He is a licensed Professional Engineer in multiple states including New Hampshire and Massachusetts. As a Senior Structural Engineer in the Bedford office, Mr. Lamb is responsible for design and analysis of a wide variety of residential, commercial, industrial, and municipal buildings throughout the Northeast. His experience includes new construction as well as preservation of historic masonry, steel, and timber structures. Mr. Lamb is the current president of Structural Engineers of New Hampshire. He lives in Bedford with his wife and two children.

Kyle Roy, PE is a Senior Structural Engineer in TFMoran’s Bedford office. He joined the company in 2006. He holds a Bachelor of Civil Engineering degree from the Georgia Institute of Technology, and is a licensed Professional Engineer in New Hampshire, Maine, and Massachusetts. Mr. Roy has over 25 years of experience in structural design and analysis of commercial, industrial, institutional, municipal, and residential buildings for public and private clients, including adaptive re-use of historic structures. His experience includes extensive healthcare engineering, supporting, and improving patient care. He is a member of Structural Engineers of New Hampshire, American Institute of Steel Construction, New England Society of Healthcare Engineers, and the New Hampshire Society of Healthcare Facility Managers. Mr. Roy lives in Londonderry, with his wife and two children.

“These new Principals represent our commitment to the future,” says Duval. “TFMoran is now in its 53rd year of operations, and we know the importance of training the next generation of leadership today. Along with Nick Golon, who became a Principal in 2020, this strong young leadership team will help us grow and prosper for decades to come.”
